

A stylized illustration of a person's head and torso in profile, facing right. The head is dark red, and the torso is a lighter red. The lungs are depicted in a light orange color, with a network of bronchi. Numerous small, dark red, pill-shaped objects are scattered around the lungs, some appearing to be inside them. The background is a solid dark red.

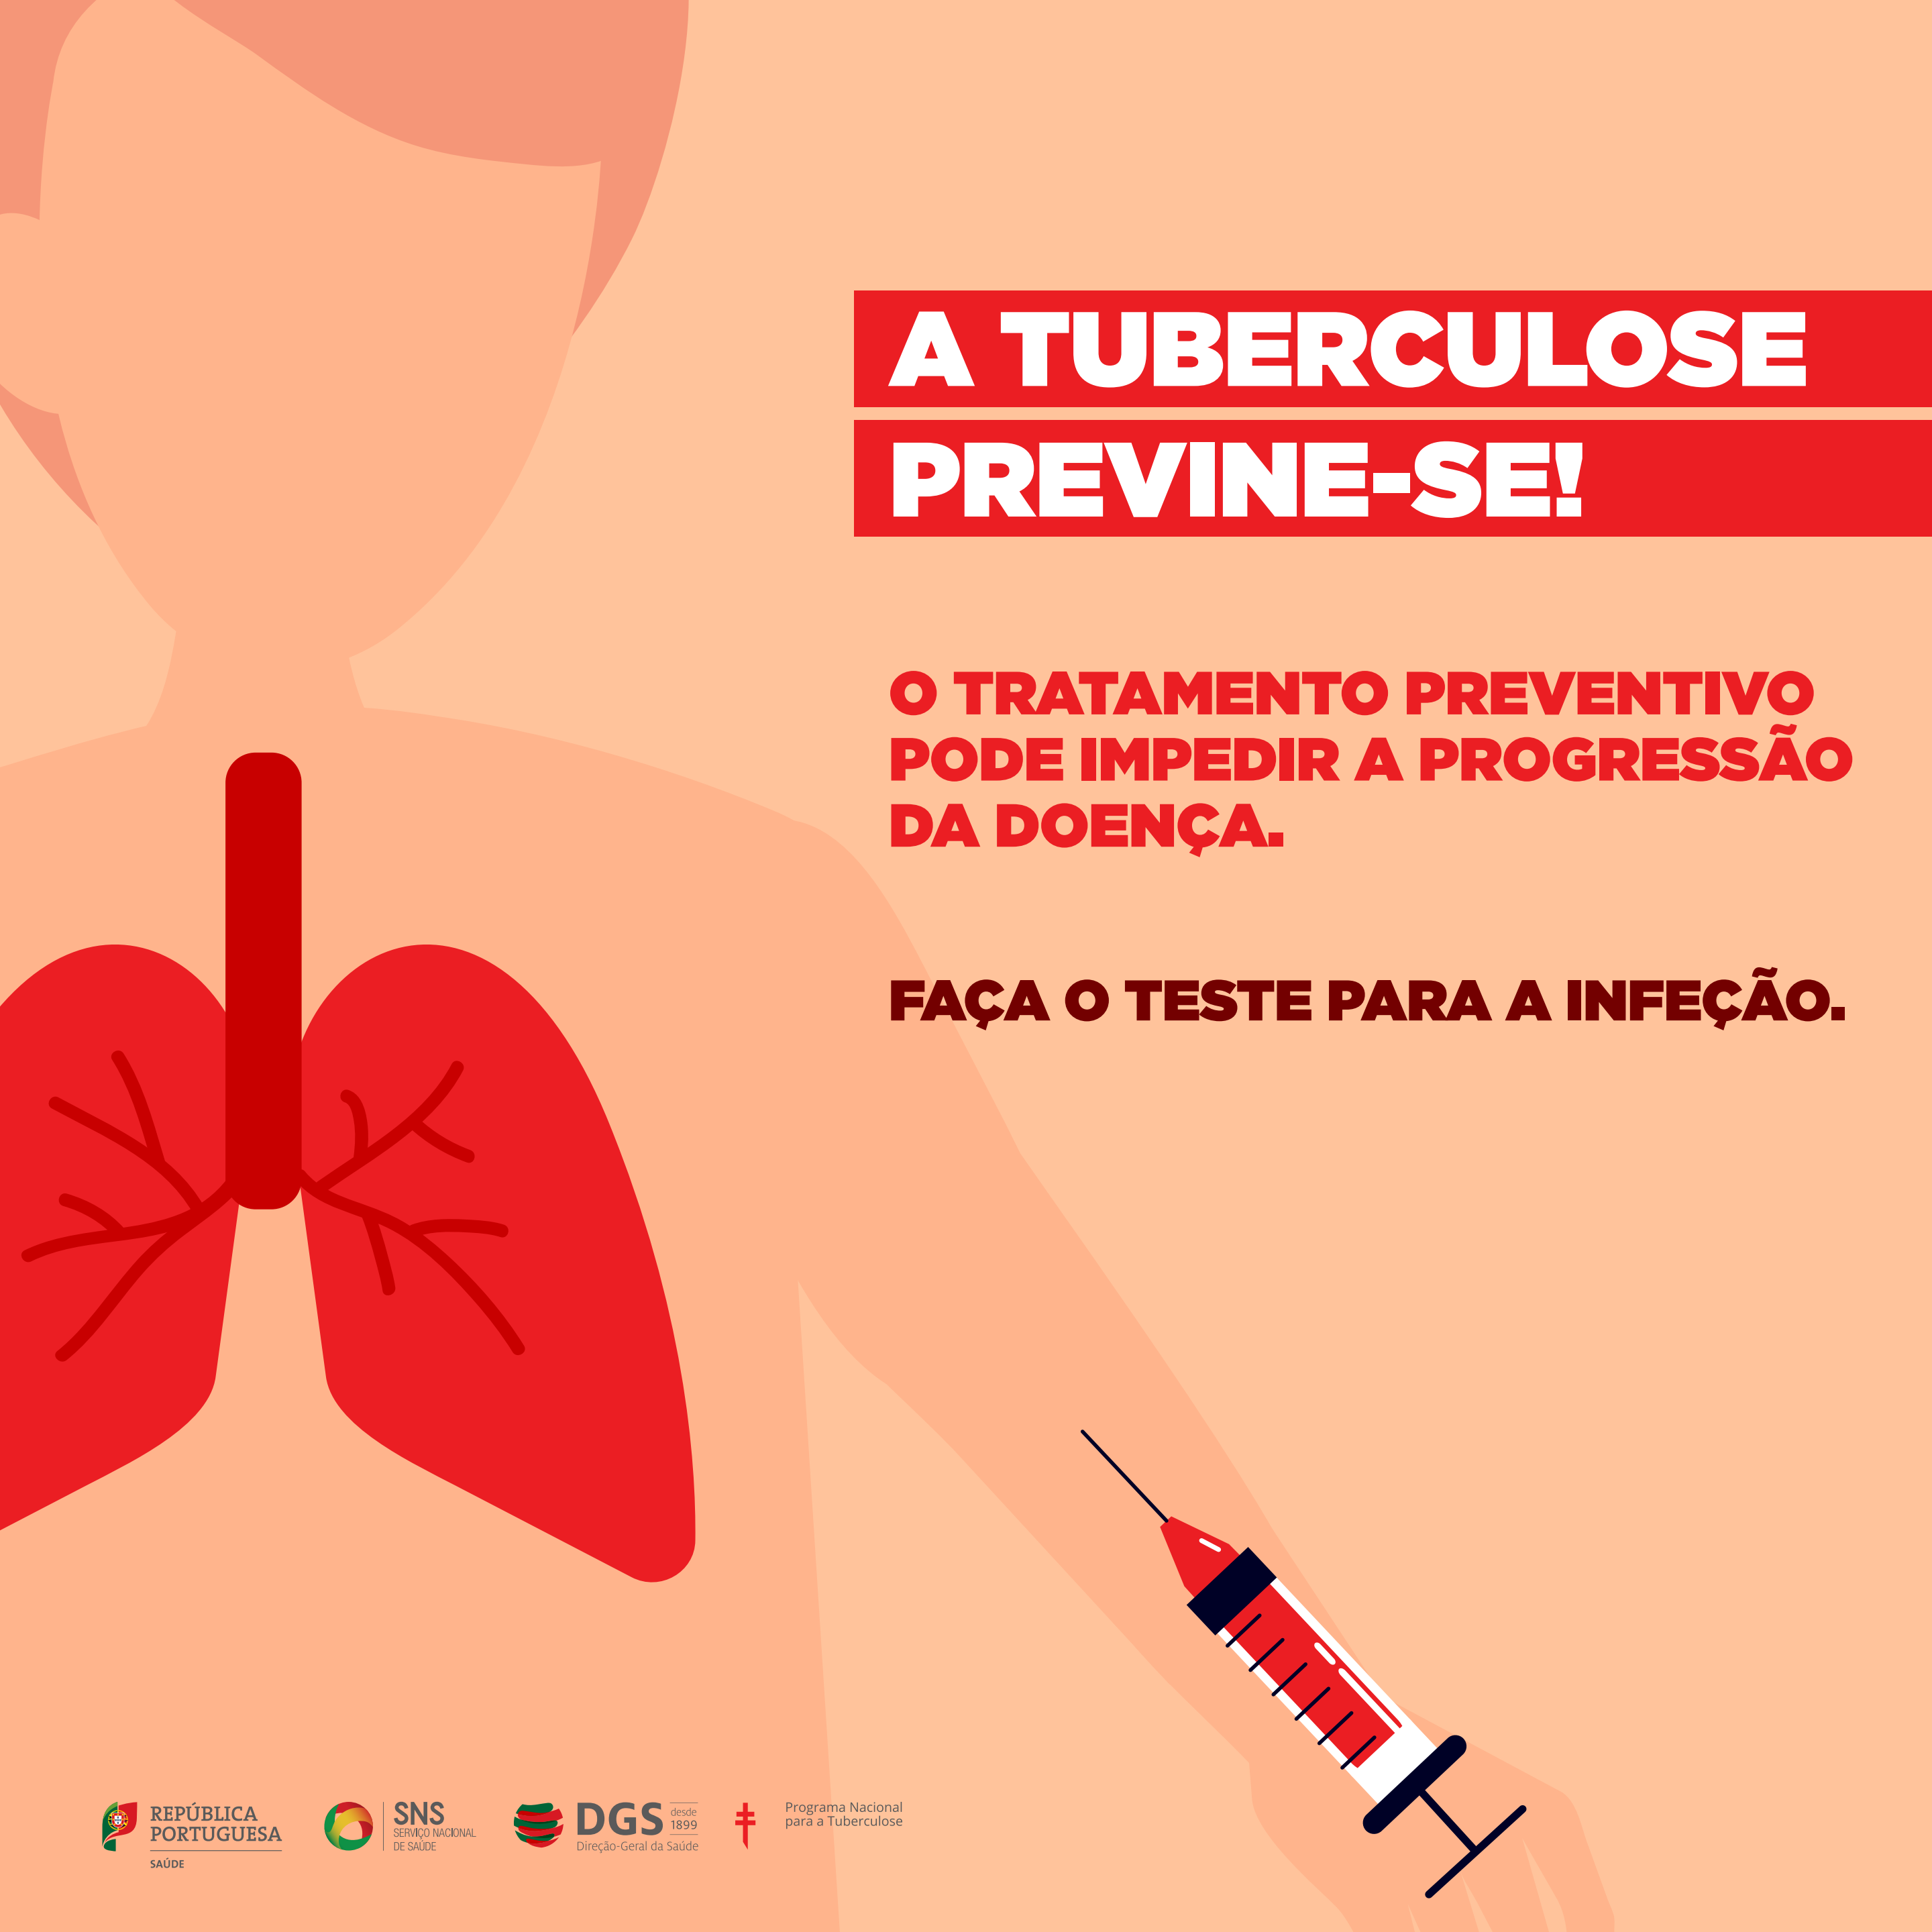

DIA 24 MARÇO **MUNDIAL DA** **TUBERCULOSE**

An illustration of a person's head and upper torso in a light orange tone. The person's hand is placed on their chest. Overlaid on the chest is a red anatomical diagram of the lungs and trachea. Numerous dark red, pill-shaped icons are scattered around the lower part of the lungs, suggesting medication.
